The CSEA Foundation believes that education bears enormous potential to initiating change in students as they play a significant role in shaping the world's future. The CSEA Foundation is committed to investing in education. We believe that every act, even a small one, can help turn the world into a better place.

In the past 13 years, the CSEA Foundation has awarded over \$136,000 in academic scholarships. The scholarship program is aimed to help students achieve their educational goals by paving a pathway towards their future hopes and dreams. This is the California State Employees Association Foundation's 38th Anniversary of awarding academic scholarships.

The California State Employees Association Foundation is supported by the generous donations from union members, association members and retirees. These donations provide scholarship opportunities for future scholarship applicants. If you would like to donate to this honorable cause, visit our CSEA Foundation homepage <https://www.calcsea.org/Home/Foundation> or contact a CSEA Foundation Board member.

The California State Employees Association Foundation is a non-profit, charitable corporation created to fund Scholarships and Disaster Grants to California State Employees Association affiliate members, dependents, spouses, and grandchildren.

For more information on how to become a CSEA Foundation Board Member or questions regarding the CSEA Foundation, please email Foundation@calcsea.org.
